Recommendation for the EPP boxes (EPP Box Gastrostar GN 1/1, EPP Box Inlay GN 1/1, EPP Box Unistar and EPP Box COMBI ROLL-UP GN 1/1)

Food transport of highest quality and hygienic standards is today one of the great requirements of our time - whether for the catering for children, workers, people in need of care or elderly people.

thermohauser's EPP boxes contribute to ensuring food safety when used properly and correctly in the area of food and menu transportation.

We, the German Federal Association of Food Inspectors of Germany e.V. have subjected the EPP boxes made by thermohauser (EPP Box Gastrostar GN 1/1, EPP Box Inlay GN 1/1, EPP Box Unistar and EPP Box COMBI ROLL-UP GN 1/1) to an intensive field test and as a result thermohauser has been awarded the right to use our seal in their sales documents with the addition:

"Recommended by the Federal Association of Food Inspectors of Germany e. V. "

for the period from 15.07.2020 to 31.10.2021 in their marketing documents.

Yours sincerely,

Anja Tittes
(Federal Chairman)
